PRESS RELEASE

St. Paul Fire District Hosts Free Flu Shot Clinic Friday October 30th, in St. Paul, Oregon

In partnership with the Marion County Health Department, the St. Paul Fire District will be hosting a drive through flu shot clinic on Friday, October 30, 2020 from 2:00 PM to 8:00 PM. The clinic will be unique, and due to social distancing requirements attempting to reduce the possibility of spreading the COVID-19 Virus, those attending the clinic never need to get out of their car. Face coverings or masks will be required for all attendees as per OHA and CDC guidance.

The fire station at 4233 Church Ave. NE St. Paul, Oregon 97137 will open the bay doors and will be providing vaccinations as they drive slowly from check point to check point, starting behind the fire station, ending up exiting the front onto Church Ave. after receiving their vaccinations.

You'll need to register for a time slot through the department's website (www.stpaulfire.org) using the link provided below.

<https://sfpd.azurewebsites.net/>

When arriving, please drive behind the fire station on either 2nd or 3rd St. Ne to Mission Ave., and follow the directions of staff who will be waiting to greet you in the parking area behind the fire station.

The St. Paul Fire District would like to thank all of its volunteers for helping to put on this event, as well as the partnership with the Marion County Health Department. We hope you and your family will join us for this event, as we all try to keep our community healthy this flu season!
